Continuation of Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report"

AGENCY: Energy Information Administration, Department of Energy. ACTION: Notice of Continuation of Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report."

SUMMARY: The Energy Information Administration (EIA) will continue the monthly collection of data on the Forms EIA-182, "Domestic Crude Oil First Purchase Report," and EIA-856, "Monthly Foreign Crude Oil Acquisition Report," through the reporting of October 2006 data that is due to EIA by November 30, 2006.

**DATES:** Data collection on Forms EIA–182 and EIA–856 will continue though November 30, 2006.

ADDRESSES: Inquiries about the continuation of Forms EIA–182 and EIA–856 should be directed to Susan Harris at the Energy Information Administration, EI–42, Forrestal Building, Mail Stop: 2E–050, U.S. Department of Energy, Washington, DC 20585, telephone: (202) 586–8384, Email address: susan.harris@eia.doe.gov or fax number: (202) 586–1076.

## FOR FURTHER INFORMATION CONTACT:

Requests for additional information should be directed to Susan Harris at the address listed above.

# SUPPLEMENTARY INFORMATION:

I. Background
II. Current Actions

### I. Background

In order to fulfill its responsibilities under the Federal Energy Administration Act of 1974 (Pub. L. 93-275) and the Department of Energy Organization Act (Pub. L. 95-91), the **Energy Information Administration** (EIA) is obliged to carry out a central, comprehensive, and unified energy data and information program. As part of this program, EIA collects, evaluates, assembles, analyzes, and disseminates data and information related to energy resource reserves, production, demand, and technology, and related economic and statistical information relevant to the adequacy of energy resources to meet demands in the near and longer term future for the Nation's economic and social needs.

In the March 23, 2006, Federal Register (71 FR 14690), EIA announced its plan to discontinue the collection of Forms EIA–182 and EIA–856 after the data for July 2006 were collected. Given that no final decision has yet been made by the Congress regarding EIA's Fiscal Year 2007 budget, EIA has decided to continue collecting both forms monthly through the reporting of October 2006 data that is due to EIA by November 30, 2006, when the current Office of Management and Budget approval of all EIA petroleum marketing surveys is scheduled to expire.

### **II. Current Actions**

EIA will continue collecting the Forms EIA–182, "Domestic Crude Oil First Purchase Report," and EIA–856, "Monthly Foreign Crude Oil Acquisition Report," though November 30, 2006.

Statutory Authority: Section 3507(h)(1) of the Paperwork Reduction Act of 1995 (Pub. L. 104–13, 44 U.S.C. Chapter 35).

Issued in Washington, DC, August 1, 2006. **Jay H. Casselberry**,

Agency Clearance Officer, Energy Information Administration.

Federal Energy Regulatory Commission

[Docket No. CP06-422-000]

Cameron LNG, LLC, Notice of Application

July 28, 2006.

Take notice that on July 18, 2006, as supplemented on July 27, 2006, Cameron LNG, LLC (Cameron LNG) filed an application pursuant to section 3 of the Natural Gas Act (NGA) and Part 153 of the Commission's Rules and Regulations for approval of proposed expansion and modifications of its liquefied natural gas (LNG) import terminal. The Commission has previously granted approvals for Cameron LNG's import terminal, which is now under construction.<sup>1</sup>

This filing is available for review at the Commission in the Public Reference Room or may be viewed on the Commission's Web site at http://www.ferc.gov using the "eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance please contact FERC Online Support at

FERCOnlineSupport@ferc.gov or toll free at (866) 208–3676, or for TTY, contact (202) 502–8659.

Any questions regarding the application may be directed to Stacy Van Goor, Director, Federal Regulatory Affairs, Sempra Global, 101 Ash Street HQ08C, San Diego, California 92101. Telephone number is 619–696–2264. Facsimile number is 619–696–2500. Email address is

svangoor@sempraglobal.com.
The application seeks authority to

expand the LNG terminal facilities previously approved and, in particular: (i) To increase the sendout rate of the terminal to 2,650,000 Mcf/d from the previously authorized send out rate of 1,500,000 Dth/d; (ii) to increase LNG storage tank capacity from 480,000 m<sup>3</sup> to 640,000 m<sup>3</sup> through the addition of a fourth storage tank; (iii) to increase the LNG unloading rate at each ship berth; (iv) to increase the send out rate to 1,800,000 Mcf/d from the previously certificated send out rate of 1,500,000 Dth/d, on an interim basis, while the proposed expansion facilities are being constructed, and (v) to modify the Btu control unit to include an option for diluting the send out gas with an inert gas stream composed of nitrogen and oxygen in addition to, or as an alternative to the liquids-stripping facility previously identified by Cameron LNG in earlier applications.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the below listed comment date, file with the Federal Energy Regulatory Commission, 888 First Street, NE., Washington, DC 20426,

a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 14 copies of filings made with the Commission and must mail a copy to the applicant and to every other party in the proceeding. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to the party or parties directly involved in the protest.

Persons who wish to comment only on the environmental review of this project should submit an original and two copies of their comments to the Secretary of the Commission. Environmental commenters will be placed on the Commission's environmental mailing list, will receive copies of the environmental documents, and will be notified of meetings associated with the Commission's environmental review process. Environmental commenters will not be required to serve copies of filed documents on all other parties. However, the non-party commenters will not receive copies of all documents filed by other parties or issued by the Commission (except for the mailing of environmental documents issued by the Commission) and will not have the right to seek court review of the Commission's final order.

Please note that on February 10, 2006, the Commission issued a Notice of Intent to Prepare an Environmental Assessment for Cameron LNG's above proposed LNG terminal expansion project in Docket No. PF06–10–000. The environmental pre-filing review of Cameron LNG's proposal has been underway since December 2005 in that docket. However, Docket No. PF06–10–000 is now closed and all further
